NOTE: text in quotes or X in scientific name means cultivar or hybrid - pure native plants are preferred food sources

Planning Your Yard

Choose helpful plants native to our region, like Scarlet or Trumpet Honeysuckle (non-invasive, good for to wildlife) vs. Bush Honeysuckle (not native, harmful Invasive). Do not take plants from the wild; Avoid wildflower mixed seed packets that may contain Invasive plants

- National Wildlife Federation (NWF): www.nwf.org/gardenforwildlife/
